WEDNESDAY, NOVEMBER 14, 1866.

A Glean of Sound Sense.

A significant article is published under the head of "Political News," in our paper to-day, from the Chicago Times, the leading Democratic organ in the Northwest.

The "new line" proposed by the Times is at once to cut loose from the Administration of Andrew Johnson, and leave that hybrid concern to float on the sea of public contempt.

This is the programme marked out by the leading Democratic organ of the West, as affording the only possible hope for the salvation of the Democratic party.

There are thousands and tens of thousands of Democrats who will accede to this view of the case. It has, too, this recommendation, that while it is the only hopeful line of policy for the party to pursue, it at the same time corresponds with the demands of justice.

We are glad that the leaders of the Democratic party are beginning to see this great truth, and we shall be glad to see them fall in with it, even from no higher motives than those of mere party policy.

Democratic Devotion to the Constitution. The present Congress is the representative of a section, and its purposes are partisan, sectional, and treasonable.

The above is a fair specimen of the ideas that now rule the Democratic party—malignant hatred of the constitutional law-making branch of the Government, and a continual incitement of the Executive to acts of usurpation.

THE LATE ELECTED. Further Returns by Telegraph and Mail. PENNSYLVANIA. The United States Senatorship.

NEW JERSEY. The Hudson county official returns give Christ 67 majority and Newark city gives Halsey 1330, making Mr. Halsey's majority in the Fifth District 1387.

MISSOURI. ATTEMPT TO DEFEAT VAN HORN'S ELECTION.—NELL'S MAJORITY 40.—FRANK BLAIR'S ELECTION.

the above extract, seek to override the Constitution, to break down the law-making branch of the Government, and to concentrate all power in the hands of the Executive.

Down With the Prices of Food. There has been an extraordinary decline in the prices of pork during the past few weeks. Mess pork has fallen from \$30 per barrel to \$24; lard from 19c. to 14c. per pound;

Table with 2 columns: Item and Price. Includes Flour, Wheat, Corn, Oats, Barley, Rye, Total Grain, Increase Flour, Increase Grain.

But the dealers are keeping back the supplies, as may be seen from the following table of receipts of Flour and Wheat at tide-water from the opening of navigation to the close of October.

Table with 3 columns: Year, Flour, Wheat. Shows data for 1866, 1855, and 1854.

The wheat crop throughout some of the great wheat districts of the West was never better than this year, while corn was universally a fair crop. There is no great foreign demand to justify the present high prices of flour, and they must come down as those of pork have done.

A Democratic Idea of "Constitutional Liberty."

A REPUBLICAN journal having said that "Congress must create out of social disorder ten new States," secure free speech, a free press, a free Christianity, free soil, and free schools for all over whom the flag of freedom floats.

British Force in Canada. The force of British troops now in Canada is greater than at any time before since 1814, numbering some 14,000 for field duty, besides 12,000 in garrisons.

COOL.—The World this morning says that we have come to a political dead lock, that the Constitutional amendment cannot be adopted. It says: "Under such a dead-lock as exists, the country will grow more and more impatient."

Democratic Devotion to the Constitution. The present Congress is the representative of a section, and its purposes are partisan, sectional, and treasonable.

ARRIVAL.—Our old friend William Cornell Jewett has just arrived from an extended trip through Europe, and is at the Continental.

THE LATE ELECTEDS.

Further Returns by Telegraph and Mail. PENNSYLVANIA. The United States Senatorship.

NEW JERSEY. The Hudson county official returns give Christ 67 majority and Newark city gives Halsey 1330, making Mr. Halsey's majority in the Fifth District 1387.

WISCONSIN. The following are the majorities for the members of Congress:—

Table with 4 columns: District, Candidate, 1866, 1854. Lists candidates for various districts.

MISSOURI. ATTEMPT TO DEFEAT VAN HORN'S ELECTION.—NELL'S MAJORITY 40.—FRANK BLAIR'S ELECTION.

St. Louis, November 13.—A bold trick has been resorted to in Clinton county to defeat the election of Van Horn in the sixth District.

county courts to endeavor Van Horn's election, and to elect the conservative county ticket. To-day the Hon. Samuel Knox appeared before the St. Louis Board of Carriers and claimed that the votes cast in the Seventh Ward, after sunset, should be counted, because the polls were not closed, but voting proceeded continuously, though the ballot was placed in a separate box.

MARYLAND. The only State officer elected in Maryland this year is Controller of the Treasury. The following table gives the vote for the candidates for this office, and also in the Constitutional Amendment as far as reported:—

Table with 4 columns: County, Candidate, For, Against. Lists candidates for Controller of the Treasury across various counties.

THE FENIANS. The Government said to be informed of a Threatened Immediate Invasion of Canada.

WASHINGTON, November 13.—The Government has information professing that the Fenians are in readiness for an immediate invasion of Canada. It is not probable that any action will be taken in the premises, as the news is doubted somewhat.
